Continuation Sheet (PTO-303)

Continuation of 2. NOTE: The amended limitations, "the porion of the substrate where the metal reflective film has not been formed providing an inspection area for the visual inspection of the injection portion in the sealing material" "the second portion of the substrate where the metal reflective film has not been formed providing an inspection area for the visual inspection of the drawn electrode region" "the region of the first substrate where the metal reflective film has not been formed providing an inspection area for the visual inspection of the connection between the second drawn electrode and the display electrode", raise new issues that would require further consideration and search.
